Main Switch Fire Danger

Your Main Switch may not be a Circuit Breaker

90% of houses built prior to 2007 may have a main switch with no self tripping capabilities if a danger leading to fire occurs. Call us today for a FREE CHECK

AS/NZS 3000:2007 WIRING RULES

CONSUMER MAINS PROTECTION

CONSUMER MAINS SUPPLYING ONE OR MORE CIRCUITS THAT ARE INDIVIDUALLY PROTECTED AGAINST OVERLOAD ARE DEEMED TO BE PROVIDED WITH AN OVERLOAD PROTECTED WHERE THE SUM OF THE CURRENT RATINGS OF THE INDIVIDUAL CIRCUIT-BREAKERS SO SUPPLIES DOES NOT EXCEED THE CURRENT-CARRYING CAPACITY OF THE CONSUMERS MAINS.
